### Webmaster / Regatta Officers Report – Martin Marriott

As far as the websites concerned it all works as we need it no issues, we have changed over to https for security not that we have information on the site we have any concerns about.

Regards Regattas report entrance for regattas have been steady over the last few years, but a bit on the low side this year which made it a bit harder to fill all duties on the race day. We would all like to see a few more younger faces, as the racers are all getting older each year. We could do with ideas on how to get more people racing, if anyone has any ideas could you let us know. SR65 racer are to have a race or two at next years Nationals, all to be sorted out and finalised during the year. The timing system all working fine with no issues.
